OGDEN COUPLE  
ARE REMEMBEREDUtah History of Lewises, Who  
Are Accused in Chicago of  
Murdering Their Child.

It is thought by the police that the Adeline McDonald who complained to the police in Chicago, accusing Samuel Lewis and Jacob Savitsky of murdering her child, is the woman who lived in Ogden as the wife of a bell boy named Samuel Lewis until the first part of last September. Startling developments in the case were made yesterday, although the authorities placed no importance in the story when it was originally sent out from the Windy City.

Addie McDonald is yet in her teens and came to Ogden from Kansas. Up until the past year or so, when she cast her lot with Lewis, she lived with relatives who still reside here.

It was while working as a pantry maid at the Union Depot hotel in this city that she became acquainted with Lewis, then working as a porter at the same hotel. He was more commonly known as "Shenny Sam." More than a year ago the couple made a trip to Salt Lake, where, it was said, they were married. Returning to Ogden they lived as man and wife at various rooming houses. Lewis is retaining his position at the hotel.

Early last spring the woman gave birth to the child which she now accuses Lewis and Savitsky of having murdered in a cornfield in Kansas. In May the mother, with her child, departed for Missouri, where, it is said, she has a sister living. At Kansas City the child was taken ill and the young mother wired to Lewis, who was still working at the hotel, to come down and see her. He arrived in Kansas City. Some weeks later the couple returned to Ogden and told of the death of the child. Lewis went to work as a bell boy at the depot hotel and a short time later his wife secured a position as waitress at a nearby cafe.

On Sept. 2 Lewis was relieved from his position at the hotel and a day or so afterward left for Chicago with his wife, and another man, now believed to be Savitsky. It is also asserted that the woman left Ogden alone, and the story told the Chicago officers is believed to be in many particulars untrue. Savitsky did not enter into the case until the return of the couple from the east, and then it is said he was a frequent visitor at the rooming house where they stopped.

There are people here who are ready to testify to the cruel manner in which Lewis treated his girl wife during the time they remained here. It is said that, just before the couple left for the east in September, Lewis presented the woman with a pair of black eyes, and that when the child was born he refused to provide it with clothing.

Lewis, prior to leaving Ogden, was a familiar figure about the Union depot. He was a ruster and was always out after the money. He is about 31 years of age and is a Russian Jew. He is small of stature and has light curly hair.

relieve acute pains of any nature. They are equally effective in neuralgia, rheumatism, sciatica, locomotor ataxia, or the pain due to spinal trouble. Ladies who have periods of suffering find that they not only relieve their distress but their attacks become less severe, and after a time often disappear altogether.

purpose in that year, that the proposed plan never matured into anything. It was never consummated, and no subscription or by assent, and it is obsolete and an impracticable thing—proved to be so. It has no life or force or being, did not exist and never has existed and is as dead as a door nail. That was a fruitless suggestion of the company, which came to naught and under which I acted as their counsel only.

"The testimony taken by the senate committee is a public record, and is available to the editors of the News and World, and had either of them been as interested in publishing the truth as they were to create a possible sensation, doubtless would have taken the pains to publish the above facts which I quote."

"I again denounce the statement wherever published or by whomsoever made, that there was a syndicate formed by American citizens to purchase the Panama canal, and to sell it to the United States as absolutely and unqualifiedly false and untrue. The Americanization plan was an entirely different matter."

"A further instance of the unwarranted attitude of the Indianapolis News, and of other journals repeating the statement, is that they have with respect to C. P. Taft and Douglas Robinson. In the same issue of the World (Oct. 3, 1908), I said:

"The mention of the names of Mr. Taft and Douglas Robinson is another evidence that this is a fake story. No man ever had any share of stock in the new Panama Canal company, or any of the obligations or securities of the old Panama Canal company, nor did they ever own or control the canal."

"I am also positive that not a man in public life in America, in or out of connection with the Panama canal, has ever dealt in the shares of the new Panama Canal company or the shares or bonds of the old company."

had been made and that I was in no way concerned or interested therein.

"That statement by me was true. I had no pecuniary interest in the canal and it was none of my business, personally or professionally, who were the stockholders or bondholders of the company."

"Since the recent publication of I have made inquiries in Paris and am informed that the distribution of these moneys is a matter of public record; that the amount received by the liquidator of the old Panama Canal company has been distributed by him as an officer of the court to the holders of the obligations of the old company; that these persons appeared in person at the office of the liquidator to request for the moneys paid to them; that they numbered 23,336, the largest number of individuals probably ever appearing in person on a single business affair, and that the average amount paid was \$152. The complete and detailed record of these payments, together with the names of the persons to whom payment was made and the amount of such payment, is in the hands of the liquidator at his office at No. 50 Rue Etienne Marlot, Paris, which is in a prominent and frequented part of the city near the bourse, easily found by any one desirous of doing so."

"As to the fund paid to the new Panama Canal company—that company at the time of the sale of its property to the United States went into liquidation and an likewise recently informed that the distribution of its assets among its stockholders was made through four leading banks of Paris, the Credit Lyonnais, Societe Generale, Comptoir National d'Escompte de Paris and Credit Industriel et Commercial, in three separate payments (July 15, 1908, and June 15, 1908), covering a period of four years, and was completed in June, 1908. This liquidation took place at the regular offices of the company, 10 Rue Louis Le Grand, Paris, readily found by anybody,—no honestly sought to find them. The facts concerning liquidation are matters of public report to the shareholders of the company (this company had no bond issue) and were the subject of official publications from time to time covering a period of four years in the official papers under direction of the courts. The amount so paid to the shareholders of the new Panama Canal company, as I am informed by the liquidators, is approximately 128.75 francs on each share of the par value of 100 francs, that is, they merely received back only the capital originally invested, and in less than 3 per cent per annum. I am informed by the liquidators that the shareholders to whom distribution was made numbered 8,756."
